Manufacturer using high quality LED Chips, with an incredible >90 CRI to give continuous conformity of light rendering. This 24v DC product is compatable with a host of control and dimming systems. Call for more details.

Wattage Per Metre	12.0
IP Rating	67
Maximum Single Length	5m
LED Brand	2216 Samsung Chips
CRI	>90
Colours Available	Warm White 3000k Natural White 4000k Cool White 5000k Colours - Blue, Red, Green, Yellow
RGB Available	No
LEDs Per Metre	300
Lumens Output Per Metre	700 (Based on White)
Lumens Per Watt	58.3
Cut Points	Every 20mm
Beam Angle	Greater than 120 degrees
Lamp Life	50,000 + Hours
Voltage	24v DC
Fixing	Clear Clips / Adhesive

Dimming

24v Dimmer
with or without
Remote

1-10v Module
