

## Scraper Light 6w-10w-18w-28w

# DAZZLED

Ideals GB can now offer an extensive range, made to order, of IP67 rated focused lighting. Unlike traditional LED Floodlights which whilst very bright, have a wide beam angle, therefore they do not throw any light a great distance. This has been overcome with the introduction of the Scraper Lights. These units use top quality Cree LED Chips and a 3.5 Degree Optic Beam arrangement. Call now for more information.

| Specification                  |
|--------------------------------|
| Product Code                   |
| Dimension(mm)                  |
| LED Quantity                   |
| LED Power                      |
| Rated Power                    |
| Cool White Light Cast Distance |
| Warm White Light Cast Distance |
| RGB Light Cast Distance        |
| Color                          |
