

Scraper Light 55w-80w-110w

DAZZLED

Ideals GB can now offer an extensive range, made to order, of IP67 rated focused lighting. Unlike traditional LED Floodlights which whilst very bright, have a wide beam angle, therefore they do not throw any light a great distance. This has been overcome with the introduction of the Scraper Lights. These units use top quality Cree LED Chips and a 3.5 Degree Optic Beam arrangement. Call now for more information.
